## **CSIP Goals - Support Through Family Literacy Services**

## Goal 1. Students demonstrate significant improvement in their understanding and application of Show-Me Standards, resulting in increased knowledge, skills, abilities and attitudes to become life long learners

Target C: Student and families will be provided opportunities to be involved in their children's successful education.

Strategy 1: Increase family enrollment and participation in the Parents As Teachers Program

Target D: Students will receive instruction as well as direction from the LMC Directors, encouraging them to be life long learners and users of libraries.

Strategy 1: Give students unlimited use of libraries, providing access to both print and electronic resources; teach them to gather, organize and evaluate resources enabling them to do research.

Family Literacy Support: Children's Education, Parenting Education, and PCIL/PACT components

## Goal 2. Students become productive responsible citizens, involved in life-long learning

Target B: Students will graduate from high school or obtain a GED

Strategy 3: Establish Adult Basic Education Class sites in schools, businesses, libraries, community colleges, workplace, daycare Centers, etc.

Target C: Students will attend college or obtain meaningful employment after high school.

Strategy 2: Provide intervention services for at-risk and homeless students/families using community resources to ensure equal access to education.

Target D: Students will develop a well-balanced life style that includes activities outside the classroom.

Family Literacy Support: Adult Education, Children's Education, Parenting Education, and PCIL/PACT components

Goal 3. Students will receive education and services from highly training professional through a support system that provides high quality professional development as well as products and services to support their teachers and other professionals in the district.

Target B: High quality support for teachers and other district professionals

Strategy 1: Develop and make available an archive or professional development resources that support the implementation of high quality curriculum and effective instructional practices.

**Family Literacy Support:** NCFL nationally certified Foundations in Family Literacy training for project staff, and various other quality family literacy professional development opportunities.
